### TODAY'S SPEAKER

**Dr. Bettina Wohlforth**, introduced by **JOEL BLUUMBERG**, is a **clinical audiologist** with a Clinical Doctorate in Audiology from the Arizona School of Health Science in Mesa, AZ. She has served as the primary clinical audiologist at the Greenwich Hospital and is currently in private practice. She has many years of experience performing diagnostic hearing evaluations and hearing aid prescriptions and fittings. She stated that there are about 48 million people in the United States with some degree of hearing loss, and she discussed the early warning signs of hearing loss. The testing takes place in a sound proof hearing booth with head phones. High and low pitched sounds and words are used to construct an audiogram showing the frequencies where hearing has been impaired. There are six companies producing FDA approved hearing aids which are available in a range of prices. Hearing aids are not covered by Medicare.
