"Everything is changing. People are taking their comedians seriously and their politicians as a joke "

Will Rogers

At 10 am the stars and the electrons were in alignment as President **RUSS HARDEN** gave the downbeat for a rousing round of the RMA Marching Song. **HORST TEBBE** recited the pledge while a screen-size image of Old Glory was displayed, beautiful!

ANNOUCEMENTS

ARNOLD GORDON led off with a couple of announcements.

- 1. Remember to complete and submit your census form.
- 2. Still time to obtain an absentee ballot for the August 11th CT primary. To obtain a

ballot, go to: https://greenwichrma.us9.list-

manage.com/track/click?u=053716f9c54f7992fd5ff0675&id=0d06a96e98&e=e9caa1be3a or call the Town Clerk

He then threw out a couple of ideas for the Council of Elders, aka "The Board" to consider.

3. Attendance at our Zoom business meetings and talks is not as robust as it could or should be. We need to induce more members to participate. We need to gather intelligence! I suggest that a poll of all members be taken to determine if they attend, and if not, why. At the same time, ask how many do or do not read the CBB, which does highlight useful information regarding our programs.

4. Can we jazz up our meetings with a special new feature that we can call RMA Breaking News. There is enough time during our Zoom business meetings to accommodate 5-10 minutes for a quick update by invitation from key officials, e.g., such as Fred Camillo, our police chief, etc., on key issues. A specific time could be set for the outsider to join the meeting.

BOB CAREY, making his Zoom debut as corresponding secretary told a knee slapper about inventive fund raising by an order of Nuns.

PETER STERN then brought us up to date on the membership stats and data.

TODAY'S SPEAKER

Brian Desrosier, President of Computer SuperCenter and Lighthouse Technology Partners in Greenwich. Desrosier's talk centered on two narratives. How a \$3.50 an hour clerk at Radio Shack became the President of two technology companies which have been honored by both Microsoft and Apple as outstanding "partners". And, how, working from California he was able to not only preserve, but grow his business in the face of the Coronavirus pandemic, while "playing by all the rules and then some.

In both narratives he attributed his success to hard work, planning ahead and putting his customer's needs first and being ahead of the curve in his products and services. A spirited RMA Q&A followed the talk.
